

Winner Adesope

Software Engineer

adesopewinner@gmail.com | +234 811 8505 970 | Lagos, Nigeria | Github | LinkedIn

PROFILE

Software Engineer specializing in Node.js, TypeScript, Rust and high-scale web environments. Highly proficient in designing maintainable APIs, scalable microservices, and real-time architectures. Experienced in managing high-integrity data across MySQL and PostgreSQL, with a proven track record of deploying containerized applications via Docker. Adept at leveraging structured, AI-assisted development workflows to deliver clean, well-tested systems that power seamless customer experiences.

PROFESSIONAL EXPERIENCE

Varsigram *🔗*, Backend Engineer 10/2025 – Present | Lagos, Nigeria

- Engineered real-time chat microservices (Socket.io) for Varsigram, ensuring seamless 1-on-1 and broadcast messaging with high availability.
- Built a student opportunities portal connecting university students with active scholarships and internships.
- Enhanced backend performance by optimizing TypeScript/Node.js systems and structuring efficient databases with PostgreSQL, NeonDB, and Prisma ORM.

PROJECTS

Campus Events *🔗*, Event Organizing platform

- Built a full-stack event management and ticketing platform using Express.js, Next.js, and MongoDB to efficiently manage large-scale attendee data
- Engineered scalable REST APIs and implemented secure, JWT-based authentication for organizers and users
- Designed a mobile-first, responsive frontend utilizing Tailwind CSS for an optimized user experience.

Redner, AI video editing engine

- Architected the backend services and stage preview engine for a web-first video editing system, optimizing timeline playback state synchronization.
- Designed scalable APIs to handle media asset streaming and complex timeline data structures, ensuring high performance under intensive rendering loads.
- Implemented a modular architecture for phase-driven feature deliverables, focusing strictly on clean, maintainable code and reliable backend execution.

GirdOrm *🔗*, A Typesafe Typescript Object Relational Mapper(ORM)

- Engineered a lightweight, type-safe TypeScript ORM from scratch for Postgres, featuring zero-config migrations and automatic relationship mapping.
- Engineered core backend development features to improve developer experience, including zero-config migrations and automatic database relationship mapping.

AI-knowledge-Miner *🔗*, Retrieval-Augmented Generation (RAG) pipeline

- Built a Retrieval-Augmented Generation (RAG) pipeline combining Pinecone and OpenAI embeddings for memory-backed, context-aware data querying.
- Integrated Pinecone vector databases with OpenAI embeddings and generation models to deliver highly accurate, custom information retrieval.

YarnTranslator *🔗*

- Developed a Chrome extension utilizing the YarnGPT API to capture browser audio and translate it into native Nigerian languages in real time.
- Leveraged the YarnGPT API to efficiently process audio streams and deliver localized, natural-sounding speech translations.

EDUCATION

Computer Science, Federal University of Agricultural Abeokuta (FUNAAB) 10/24 – 08/28 | Abeokuta, Nigeria

SKILLS

Languages: JavaScript (ES6+) , Typescript, Nodejs, C, C++, Rust

Database and Caching: PostgreSQL, MySQL, NeonDB, Prisma ORM, Type ORM, Redis, MongoDB

Frameworks and Runtime: Node.js, Express, NestJs, Axum

Architecture and Methodologies: System Design, Test-Driven Development (TDD), RESTful APIs, Real-Time WebSockets (Socket.io), AI-Assisted Development Workflows.

DevOps and Cloud: Docker, Git, CI/CD (GitHub Actions), AWS, Google Cloud Platform (GCP).

ORGANISATIONS

Google Developer's Group (GDG), FUNAAB Chapter, Member 11/2024 – Present | Abeokuta, Nigeria

- Participated in workshops focused on modern web technologies and open-source contribution.

Cowrywise Ambassador, Member 10/2024 – Present | Abeokuta, Nigeria

Took part in Cowrywise ambassadorships program where I worked as a campaign manager and PR for the Organization.

LinkedIn Local Abeokuta, Volunteer 10/24 – Present | Abeokuta, Nigeria

- Volunteered as a campaign manager and PR for LLA 24.
